

## **Enhancing Resilience in IDB Member Countries - Humanitarian & Development Nexus**

---

This seminar will build a shared understanding among OIC member countries, governments, development institutions, private and public sectors, donors and other partners on the need for resilient communities.

Participants will discuss the scope, implications and response to the increasing demand to support countries and communities to build resilience to all types of risk related to the interlinked issues of poverty, crisis and conflict.

The seminar will help OIC member countries prepare to participate in the first-ever World Humanitarian Summit, set for 23 and 24 May in Istanbul, Turkey. The aim of the seminar is to create an OIC resilience strategic framework, which includes adopting an innovative aid tool so that Islamic Social Finance can address humanitarian funding gaps.
