

The Mohammed Bin Rashid Centre for Government Innovation

United Arab Emirates

The Mohammed Bin Rashid Centre for Government Innovation was established to stimulate and enrich the culture of innovation within the government sector through the development of an integrated innovation framework. The goal is for innovation to become one of the key pillars of the UAE government in line with the vision of H.H. Sheikh Mohammed Bin Rashid AlMaktoum, UAE Vice President, Prime Minister and Ruler of Dubai, which aims to develop government operations and enhance the UAE's competitiveness, making the UAE one of the most innovative governments around the world.

BUSINESS MODEL

The Mohammed Bin Rashid Centre for Government Innovation aims to make innovation an everyday practice by experimenting with new approaches, enabling people with the right capabilities, networks and resources, thereby enriching the culture of innovation.

Experiment - Innovative Ideas

Innovative ideas make a real difference in government work, and the Mohammed Bin Rashid Centre for Government Innovation provides a world-class, multifunctional space for testing, creating and spurring innovation locally, regionally, and internationally.

Key initiative: Government Innovation Labs

The Government Innovation Lab consists of a collection of specialized interactive sessions and workshops that use innovative methods and tools to inspire innovative ideas.

Enable - Innovative Capabilities

The Mohammed Bin Rashid Centre for Government Innovation works on building the innovative capabilities of government employees, through the development of an integrated framework of innovation tools to empower government employees.

Key initiative: Public Sector Innovation Diploma

The center launched a one year innovation program in government innovation where participants from executives from federal and local government departments went through a training program about public sector innovation. The program is in partnership with leading educational Institutes.

Enrich - Innovative Culture

MBRCGI aspires to promote an innovation culture in the UAE Government Sector through building international partnerships and becoming a global hub for innovation and best practices. In order to deploy innovation concepts within the government sector.

Key initiative: UAE Innovation Month

Is a nationwide celebration and the largest of its kind. It succeeded in attracting all segments of society, who through their participation, contribute to shaping the future of the UAE. This event helps in creating a widespread culture of innovation in the UAE and strengthen its position as a global hub for innovation.
